

**Jung-gu Multicultural Family Support Center** is offering education from April to November for improving awareness on multicultural to help the residents have a correct understanding of the cultures of various countries as members of a multicultural society, and develop an attitude of respecting and embracing other cultures.

The program consists of an education for understanding multicultural which involves learning the characteristics, common features and differences of each culture, and hands-on activities where participants can experience the clothing, music, food, etc. of different cultures. It is expected that this program will help realize the integration and coexistence as a multicultural society by breaking the prejudice and stereotype on other cultures and developing an attitude of understanding and respecting various cultures.

**Incheon Mental Health Welfare Center** is implementing a program to look after the mental health of multicultural families and support their recovery.

Starting with the business agreement with township multicultural family support centers on March 16, various projects for the multicultural families and workers will be supported until December 2018. The project includes distributing the 'mental health questionnaire' in townships which allows residents to check their mental health themselves and supporting the medical expenses for the recovery of high-risk patients. We also plan to visit the multicultural festivals held in Incheon City to offer stress test and counseling on mental health.

## The Country's First Moving Service for Low-Income Families

This year, Incheon City is implementing free moving service (Happiness Moving Service) for low-income families as a pilot project for the first time around the country. Low-income families who receive living benefits or medical aid can apply for the service when moving to another residence with monthly rent or lease. The service is provided only on weekdays, and the residence exceeding an exclusive residential area of 85m<sup>2</sup> is excluded from the service. Applicants need to bring the contract and visit their County or District Office two months prior to the due date to apply for the service. Meanwhile, Incheon City plans to support a hundred households first by investing 100 million won, and gradually increase the subject to benefit from the service.

## Incheon Fire Department to Install Ten Additional Emergency Fire Extinguishing Equipments

Incheon Fire Department is installing ten additional emergency fire extinguishing equipment with a fire safety subsidy of 80 million won. Emergency fire extinguishing equipment are facilities that extinguish the fire by connecting the fire hose to fire hydrant, and they are useful in places that are far away from the fire department or where fire engines have difficulty entering due to narrow roads. There are 314 emergency fire extinguishing equipment in Incheon City. The Fire Department is planning to install fire extinguishing equipment in places requested by the residents this year.

## Making Posture Maintenance Equipment for the Disabled by Visiting

Incheon City is implementing production service by visiting the disabled in an effort to supply and spread the posture maintenance equipment for the disabled which are equipment for preventing the body shape deformation of people with severe physical disabilities and brain lesions.

Previously, the disabled who wished to use the equipment had to visit the Notre Dame Welfare Center, but from now on the production crew such as therapists, assistance device engineers, etc. will visit the facility for the disabled to measure the body shape and obtain the shape in 3D data.

Meanwhile, Incheon City has supported 3,182 cases since it began the production and supplying of customized posture maintenance equipment for the first time in the country in 2004.
